

HELIOS[®]

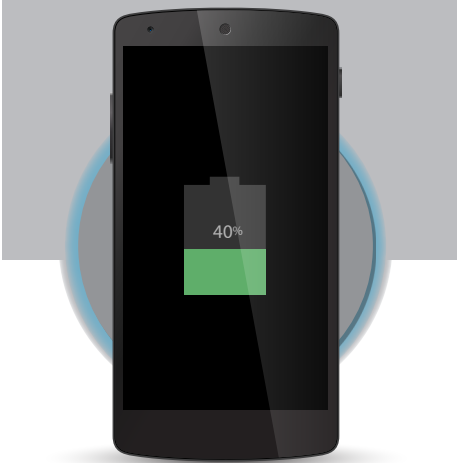

SURFACE-MOUNT

Transforming ordinary surfaces into wireless charging points.

Helios[®] Surface-Mount chargers are so versatile, they can be embedded into almost any surface for an ultra-convenient charging experience.

Perfect accessory for case goods, and stationary or motion seating.

Helios[®] is an award-winning, wireless charging technology designed to meet the unique needs of the devices we use and the spaces in which we live, work, and play.

Helios offers cutting-edge wireless charging convenience, whether you are at home, at work, or in public areas, such as hotels, airports, and schools. Helios chargers support Qi, the world's leading wireless charging standard utilized by more than 50 million people across the globe.

Leggett & Platt, world leaders in motion furniture innovation and technology.

How it works

Primary coils placed in a Helios surface transfers wireless power to secondary coils in the device to charge the product.

Key Features & Benefits

- Create more organized spaces.
- Simplify product design.
- LED charging indicator.
- Reduce the risk of electric shock.
- Protect phones against power surges.
- Fits standard 60mm cord-management grommet hole.
- Patent-Pending Technology.

Install Helios into:

- Sofas
- Recliners
- Consoles
- Desks
- End tables
- Kitchen counters
- Night stands

Endless possibilities for home, work or public areas.
