

# InSpira™

Lounging Ingenuity

Power Press-back,  
Wood-to-the-Floor Mechanism

## WALLHUGGER TECHNOLOGY

Wall

Close proximity to the wall

## Remarkable low-profile, wall-hugging chaise lounge seat application.

The InSpira power press-back mechanism for wood-to-the-floor motion furniture applications.

Creative furniture designers take note – InSpira offers a unique, WallHugger® motorised chaise lounge application for High-, Mid-, and Low-Leg seats.

### The state-of-the-art power press-back lounge mechanism is now featured within a wood-to-the-floor application, for an outstanding lounging experience.

InSpira allows the seating cushion to slide forward while the back of the seat goes into full-recline, gaining additional resting surface.

Creative furniture designers will be inspired by its endless design possibilities. Additional accessories, such as the Contempo™ headrest, are compatible with InSpira.

The home of motion furniture innovation, Leggett & Platt.

#### Attributes include:

- Effortless motion for easy operation by all ages
- Easy action to Full-Recline/Lounging position
- Sleek low-profile mechanism

#### Activation options:

- 2-button handset or switch.
- 4-button handset or switch (when used in conjunction with Contempo headrest).

### Key Features & Benefits

- WallHugger® – The back of the seat will go into a full-recline position in close proximity to the wall.
- 350 lbs weight capacity.
- Accommodates leg heights of 50.8 mm (2-inch) - 152.4 mm (6-inch).
- Varying seat widths.
- Available in power only.
- Compatible with Contempo headrest mechanism.
- Multifunctional seat/headrest hinges can also be applied for additional styling opportunities.
- Perfect accompaniment to InNova™ and EasyCliner® mechanisms.
- Patent-pending technology.
